About me

Motivated self taught Front End Web Developer skilled in HTML, CSS, JavaScript, and React, as well as design software like Figma. Strong at translating designs into interactive web pages. Collaborative mindset, keen eye for aesthetics, and eager to deliver compelling web solutions.

SKILLS

Expertise in web based languages such as HTML CSS and Javascript.
Experience with front-end frameworks and libraries such as React, Bootstrap and tailwind.
Figma and webflow to produce designs, mockups and wireframes.
Proficient in Git for version control in collaborative development environments.
Confident use of Office 365 suite and its administrative functions.

EDUCATION

Guernsey Grammar School & Sixth Form Centre - *A-levels*
September 2020 - June 2022

Finishing Sixth form at the end of June in 2022 I came away with 3 A levels in Chemistry, Computer Science and Maths achieving AAB respectively.

EMPLOYMENT HISTORY & EXPERIENCE

PGL Activity Centre, Weymouth - *Activity Instructor*

June 2023 - Present

My responsibilities and job role as an activity instructor included coaching and instructing large groups of children in a multitude of outdoor activities whilst also being responsible for their general wellbeing and safety onsite.

Clarity IT - *Service desk Engineer*

October 2022 - April 2023

My responsibilities as a service desk engineer included client communication and familiarity with all kinds of software over a range of industries. Communication within the business to relay information between client and the business. I also needed to be able to follow procedures to log and bill time to clients based on their problems.

PGL Activity Centre, Weymouth - *Activity Instructor*

July 2022 - October 2022
